THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to Americans as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of contingencies, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of vision. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saving nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of

Wines, Liquors & Cigars,

Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through peddlers and I can assure my customers that the Liquors that I now offer, have not passed through second hands on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.

I have marked my Goods very low, and have therefore adopted the

ONE PRICE SYSTEM,

and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangement are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.

Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, in the year 1791. A like machine was invented by Samuel Bentham. In this country by one Kugler, some eleven years since, and another one put up by Albert Hichcox years since, at West Troy, N. Y., and abandoned about the same time. Brought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

"I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
Philadelphia."
May 19, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1846, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

VOLUME VII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Kossuth at Southampton.

HIS GREAT SPEECH AT THE MAYOR'S BANQUET.

The Mayor of Southampton gave to M. Kossuth an elegant entertainment on Saturday the 25th, at his country house, at which were present, among others, Dudley Stuart, Mr. Cobden and M. Pulsky. The room was crowded. The usual toasts to the Queen and Prince Albert were drunk, followed by others to the "President of the United States," and the "Sultan of Turkey." The Mayor then rose to propose the health of their illustrious guest, whose presence among them was a source of rejoicing to the whole English people. He was delighted to see the unanimity with which he was welcomed, as the champion of Constitutional liberty; and he trusted these demonstrations would have effect in the proper quarter.—The Press, which was the leading and most powerful agent in all reforms, would, he hoped, be unanimous on this subject. He would not dilate to them on the claims which Kossuth had upon all the friends of freedom. He had, as one of his first acts of power, emancipated 8,000,000 of serfs, who could never be enthralled again; and the day was not, he hoped, far distant, when he would have the power to emancipate eight millions more. [Loud Cheers.] Without further preface, he would give them, "*The health of Louis Kossuth, and prosperity to his undertakings.*" [Loud Cheers.]

M. Kossuth then rose, and in excellent English, proceeded to address the assemblage as follows:—

MR. MAYOR AND GENTLEMEN:—In rising to thank you most sincerely for the noble, kind and generous sentiments which have been so well expressed, and so heartily responded to, I experience emotions far too strong to permit of any display of eloquence. Besides, I was quite unprepared to meet so distinguished an assemblage as that which I have the honor of addressing. Not much accustomed to address public assemblies in my own language, I fear I shall have great difficulty in addressing you in English, and therefore must, in the first instance, claim your patience and generous indulgence. [Hear, hear.] I believe I may attribute the generous sentiments of which I am the object to nothing else than that sympathy with a struggle for freedom which so well befits the free Englishman, and to the fact that the cause of Hungary is a just cause, strongly and intimately connected with the maintenance of the principles of freedom all over the world. [Loud cheers.] Now, instead of any vain attempt to give you an eloquent speech, perhaps the better way will be to give you, in a plain, unvarnished manner, some information respecting the great cause which I have so deeply at heart. [Hear, hear.] I wish the people of England to know the true nature of the past troubles in Hungary, in order that we may preserve the generous sentiments already displayed towards us, and I believe that that can in no way be so well done as by a plain statement of facts, without any other rhetorical flourish, or artificial pomp of words. [Hear, hear.] To understand fully the Hungarian question it will be necessary to say a few words about Hungarian institutions.

You all know that Hungary was for more than 800 years a constitutional monarchy, and that alone is no small indication as to the elements of strength existing in my nation. [Hear, hear.]—When you reflect upon the geographical position of Hungary, and reflect that the Magyar race are an Asiatic people, who are thrust into the middle of European races, without friends and without kindred, you must give credit for the firmness and inherent strength that maintained the national institutions for so long a period. We were, in fact, surrounded by despotic powers. On the one side was Turkey, encroaching on us for centuries, and against which we had for ages been considered the bulwark of Europe—not only of its civilization, but of its Christianity—and on another was Russia, a power which, not for the benefit of mankind, has grown prodigiously in influence during the last century. [Hear.] On the third side was Austria not the large empire it now is, but the proper dominion of the House of Hapsburg, not one of the sons of which, if history speaks truth, was ever the friend of political freedom. One of them, it is true, Joseph II., was the friend of religious freedom, and of the social freedom of the peasantry. But even he, the best of the Austrian dynasty, was strenuously opposed to any extension of political privileges.

Such was our position, then, surrounded by Turkey, Russia, and the dominions of the House of Hapsburgh, and, besides all that, we had an internal state of things which has always been considered a bar to national greatness, namely, that the people of the country were excluded from political privileges. Still, with all these difficulties, the Magyars preserved not only their national life but their national institutions. [Hear, hear.] Am I not, then, justified in saying that in such a nation there are elements of a future, and that such a nation deserves to have rights? [Loud cheers.] I have already stated that the original people of the country had a share in constitutional rights. The constitution of Hungary was aristocratic, but an aristocratic constitution in Hungary was somewhat different from the meaning which is attached to the word in England.—In Hungary the word is not synonymous with power and wealth, but simply means position obtained by birth, so that if a man were born noble, all his children and children's children would be noble also. What was the consequence? Nations, like individuals, are subject to many changes, and the descendants of the old nobles of Hungary did not remain great and powerful, but became so propagated and diffused as to be nearly the people themselves, and poorer than the peasantry, because the nobles had the ambition not to work, as if labor were not the highest honor of humanity. [Loud cheers.] Therefore we found that this poor aristocracy were not only in the condition of the people, but actually poorer, because not so industrious.

But one prominent feature in these facts is, that our aristocracy was not so opposed to the extension of constitutional rights as were the other aristocracies of the middle ages, and as was formerly the aristocracy of this country. I say was, because I confess that the aristocracy of England have known how to meet the exigencies of the time, to share their privileges with the people, and to bear with the latter their proper share in the public burdens of the country. And they have had their reward, for the aristocracy of England has remained firm, while other aristocracies have been scattered to the winds. But in Hungary the nobles were diffused among the people, were agriculturists, landlords, or manufacturers and laborers, and therefore the word in our case must be taken with a meaning different from its acceptation in other countries, and I must add that altho' the people were not by the ancient constitution allowed to speak for themselves, still we always found among the aristocracy generous and valiant men, ready to stand forth as the champions of their country, and of the rights of humanity. [Cheers.]

To enable them to do so, they had framed two institutions—one was what I may call the parliament of Hungary, and the other was the county municipal institutions, which latter, more than the parliament, were the safeguards of the rights of the people. Besides, these county institutions were so framed that they could be the only media through which the government could convey orders to the magistrates and other officers. These county meetings were composed of noblemen who resided in the counties, and in some counties amounted to twenty-five or thirty thousand, every one of whom had the right of voting at elections for magistrates who were the only executive power of the country. If the government wanted any order executed, it must be done by the municipal magistrate; but he could not come into immediate contact with the government, who must send their orders in the first instance to the county meeting. Such meetings had a right to discuss the orders of government, and more than one case has occurred, in which the order was not forwarded to the magistrate for execution, but a remonstrance sent to the government for sending it.—They formed thus a strong barrier against the encroachments of the government; and no country has needed such a barrier more than Hungary, for more than three centuries, the house of Hapsburg has not had at its head a man who was a friend to political freedom. [Loud cheers.]

Now, the House of Hapsburg has ruled in Hungary for these three centuries, not by conquest, but by the free choice of the nation; not without conditions, but firmly bound by treaties, the chief feature of which was, that when the King was admitted to rule in the order of his lineal succession, he was to rule and govern Hungary by means of its own public institutions, and according to its own laws; he swore solemnly to do so, and prayed to the eternal God to bless him and his race, as he was true to his oath. Thirteen Kings we have had of this dynasty, and no man can charge me with exaggeration, when I say that the rule of these thirteen Kings has been a continuous perjury. [Great sensation, caused by the wonderful energy which Mr. Kossuth threw into the delivery of this sentence.] Yes, perjury, that is the word. [Renewed cheering] Gentlemen, I am a plain man, and call things by their right names. [Cheers and laughter.] Now, when the Hungarian nation elected the head of the house of Hapsburg as her sovereign, the country contained upward of 4,000 German geographical square miles, which, I am informed, is equal to 100,000 English square miles, and 15 millions of people; no small or insignificant realm, as you will admit. [Hear, hear.] At the time, too, the house of Hapsburg ruled constitutionally in all their other provinces, but subsequently these provinces lost their rights; and, through the whole of the three centuries the direction of the ambition of the house of Hapsburg has been to obtain undisputed absolute dominion over all their territories.

Shortly before the Pesth struggle there was not a single province of the Austrian empire that had a constitution, the ambition of the house of Hapsburgh having absorbed the constitutional rights of all. Our constitutional rights were not absorbed, because we did not belong to the Austrian empire, nor had we any connection with it, except such as that of Hanover with this country, with this exception, that the line of succession was not limited in the same manner. We administered a coronation oath, setting forth that there was to be no connection between Hungary and any other province, and that while we acknowledged the same sovereign, our rights were to be preserved, and we were to be governed solely by our own laws and customs. [Hear, hear.] We also provided that, in case the sovereignty should in the line of succession, fall into the hands of a child, the same course should not be adopted as in the case of Austria. In such a contingency the regent of Austria would be some elder member of the royal family; but we provided that a Hungarian palatine should be appointed, so that our constitutional rights should not be absorbed. These rights were also protected by our municipal institutions, which, with an inherent strength that never could be completely broken, steadily resisted the encroachments of the crown.

Perhaps I may illustrate the defensive strength of these institutions by alluding to the siege of Saragossa by Napoleon. When Napoleon had battered down the walls, he was as far from success as ever, because he had to fight single battles with the citizens in every street. So it was in Hungary with her municipal institutions.—[Cheers.] I remember an occasion when the house of Hapsburg, in defiance of the parliament, levied troops, and raised the taxes from one to two-and-a-half times as much as they were before, and when the majority of over fifty-two of our counties, influenced by terror and every other means at the disposal of the government submitted to the encroachment. At that time there were only ten or twelve comitats that resisted, and the resistance of even these few was as effective as that of the people of Saragossa. [Loud Cheers.] By these means we preserved through all the encroachments some shadow of independence, but the Austrian government having obtained absolute power in their other provinces, took every means, from open violence to the most insidious guile, to overthrow our municipal institutions. They fomented our quarrels, undermined our national character, impoverished our country, and corrupted our nobles. Our parliament, which ought to be convened once in the three years, was not convened for twenty, and so arbitrary government went on, until at last we became aware that from 300,000 to 500,000 nobles would not be sufficient to defend the rights of the country from the despotic tendencies of Austria.

From this point dates our struggles, which have now lasted for about 28 years. We decided that our best safeguard would be to inspire all the people with the sentiments of patriotism, by giving all an equal interest in constitutional rights. [Loud cheers.] That was the direction of public opinion in Hungary in 1825. We felt the necessity the more, because, although we had a board or council of government which by law was responsible to the country, and were bound not to carry into execution any order even of the sovereign which was contrary to our laws, still we knew that there was no real responsibility in this council, because no corrupt body can be made to feel responsibility. Individuals may be made responsible, but when the government becomes collective, responsibility vanishes. We saw, therefore, that our rights and privileges were vanishing under the machinations of the Austrian government, in which Metternich was then all in all; and feeling that 500,000 nobles could not effectually resist such encroachments, we proposed to give to the whole fifteen millions of our people an interest in constitutional rights, and a motive for defending them. The peasantry must form an important consideration in every country, but doubly so in Hungary, which was and is chiefly an agricultural country. The condition of our peasantry became then the first topic with our reformers, who felt that our country, so highly gifted by nature, could never be made the earthly paradise it ought to be, except by free laborers enjoying constitutional rights; and, seeing that our peasant had to work for his landlord 104 days in the year, to which must be added Sundays, festivals, and winter, and had to give the ninth of his produce to the seigneur, the tenth to the bishop, we felt that this was a condition contrary to human rights and the principles of justice. [Loud cries of "hear, hear."]

FRIDAY MORNING, NOVEMBER 21, 1851.

Rufus King, Wm. H. Watson & John. S. Fillmore, PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

OFFICIAL PAPER OF THE CITY.

PROCLAMATION BY THE GOVERNOR.

The Governor of the State of Wisconsin hereby designates that *Thursday the 27th day of November, instant*, be observed by the people of this State as a day of *Thanksgiving* and *Prayer*, in manifestation of their gratitude to the Supreme Giver of every good and perfect gift for the numerous and diversified blessings enjoyed by us the past year, and as indicating our worthiness to be the recipients of like benefits during the year ensuing.

This religious festival is peculiar to the American people; established by the piety and sense of duty of our forefathers, to express their grateful feelings and dependence upon a Divine Providence for the enjoyment of life, liberty, and happiness. Such being the origin of this religious custom of our nation, it is recommended by the Executive of this State, that we unite as one community with the people of our sister States in observing this day with appropriate religious exercises, and in the giving of thanks and prayer to the Supreme Disposer of every good, for His protection and forbearance for the past and future.

In testimony whereof, I, Nelson Dewey, Governor of the

[L. S.] State of Wisconsin, have hereunto set my hand and affixed the Great Seal of the State.

Done at Madison, this third day of November, in the year one thousand eight hundred and fifty-one.

By the Governor, NELSON DEWEY.

WM. A. BARSTOW, Secretary of State.

Washington Rumors.

Rumor has been busy of late in telling divers strange stories of diplomatic and Cabinet doings in Washington, and the people of the country are perplexed with the most contradictory statements, asserted one day, and as confidently denied the next. From among the mass of contradictions we glean the following facts, the self-evident verity of which will strike the mind of the reader at once.

Concerning the Cuba affair, Spain has declared that she will withdraw her Minister and Consul, and issue at once letters of marque and reprisal, authorizing rovers of the ocean wave to take, burn, and destroy our commerce, if a U. S. vessel is not at once sent to Cuba to restore the Spanish Consul to his port in New Orleans, and his flag saluted with all the honors; and nothing of the kind has been threatened at all, but Mr. Webster is calmly negotiating for the release of Lopez' companions.

France and England have put their fingers in this pie, and burnt them badly, both having been informed that they might about as well mind their own business, or look out for squalls; and Mr. Crittenden's intercourse with the Ministers of those powers has been, and is, on the most friendly footing—the three billing and cooing together in the most perfect *entente cordiale*.

Austria has exhibited, through Mr. Hulsemann, a determination to declare war at once, if Kossuth shall be admitted to an interview with the President, and *will* do it without fail; and more than this, Mr. Hulsemann is on perfectly good terms with Mr. Webster, and constantly assuring the latter and the President of the distinguished consideration with which the Austrian Emperor and himself are their most obedient servants.

Mr. Webster is to go out of the Cabinet at once to recruit in time for spring operations. Mr. Crittenden takes his place, being succeeded in the post of Attorney General by Hon. Rufus Choate, who will remain in the practice of the law at Boston, ready to shed tears for $500 and faint for $1000, while Mr. Crittenden will continue to adorn the post of law adviser to the Government, and Mr. Webster will still be the Premier, having no ulterior aspirations.

The Next Legislature.

The election of Mr. OTIS HOYT, democrat, in the St. Croix Assembly District, determines the complexion of the Legislature. The two Houses will be thus divided:

	WHIGS.	DEMOCRATS.	FREE SOILERS.
Senate,	5	13	1
Assembly,	31	28	6
	36	41	7

There is a *tie* in the Beaver Dam Assembly District, to be decided at a special election. The Locos have 7 majority in the Senate (thanks to the half holding over,) but there is a majority *against* them in the Assembly, and also on joint ballot. We have credited the Locos with the two Independent candidates in Dodge and Grant Counties, Mr AVERBECK and Mr. MCKEE, altho' both were elected by Whig votes.

NEW YORK CANALS.—Now that the Loco Focos will probably have the control of the New York Canal Board, the *Journal of Commerce* and other papers of that stamp, take ground against carrying on the Enlargement under the late law; and thus this great measure of justice to the West is likely to be delayed by the folly of the New York politicians.

DEATH OF DR. PATTISON.—The medical profession in New York has lost another distinguished member, by the death of Dr. Granville Sharpe Pattison, Professor of Anatomy in the University at the age of 61.

New York Election.

The Albany *Argus* of Monday last, the 14th instant, still thinks the result in New York as to *four* of the State Officers exceedingly doubtful, and only to be settled by the final official canvass. It is conceded that the following are chosen by about the majorities named:

For Randall, Dem., Secretary of State about	4,350
" McAlpine, Dem., State Register,	2,400
" Storrs, Dem., State Prison Inspector,	2,800
" Johnson, Dem., Judge of Appeals,	3,300

The apparent majorities of the others are thus stated by the *Argus*:

Majority for Wright, Dem., Comptroller.	514
" Cook, Whig, Treasurer.	116
" Chatfield, dem., Attorney Gen.	264
" Fitzhugh, Whig, Canal Com.	766

It is certain that Mr. FITZHUGH is elected Canal Commissioner, and more than probable that Mr COOK is elected Treasurer, while the chances are about even as to Attorney General. The Legislature is settled. In the SENATE parties are *tied*, 16 to 16. In the ASSEMBLY, the Whigs have *two* majority, 65 to 63.

CURIOUS.

As the smoke clears away from the New York battle field, some singular results are apparent.—For instance, in Ontario County, Messrs. Frank Granger and many others refused to vote for the whig candidate for Assembly, on the ground that the convention which nominated him voted down a resolution in favor of the Fugitive Slave Law. They succeeded in electing Mr. E. W. Simmons, a *leading Barnburner*, who was nominated by a convention which passed the following resolution:

Resolved, That the National Federal Administration, by its extreme and detestable subserviency to the demands of the Slave Power, by its disgraceful violations of all past professions and pledges, and by its Galphin frauds upon the Treasury, has forfeited all claim to the confidence of the Freemen of New York.

☞ The Oshkosh *Democrat*, having learned that Mr. GEORGE HYER, late of the Waukesha *Democrat*, was coming to that place to start "a straight democratic paper," is preparing to welcome him "with bloody hands and an inhospitable grave." It denounces our friend HYER as a "bolter," reminds the public that he has been formally "read out of the party" by "Beriah the Bashaw," and concludes its philippic thus:

The idea is certainly rich. Besides, the peculiar auspices under which the enterprize will be started, are just now singularly popular in this county, and will have a *telling* effect for the new paper.

We trust, nevertheless, that Mr. HYER will "go ahead." There are only two "democratic" papers (both "straight," of course!) in Winnebago county now, and it gave FARWELL 453 majority. With a *third* paper, we might reasonably hope for two or three hundred more.

GIFTS FOR THE SEASON.—Our contemporary of the Cleveland *Plain Dealer* was incautious enough to put himself on record in this wise, touching the probable result of our State Election: "if Wisconsin does not go democratic we are no Christian." Being now twitted with this avowed *Heathenism* by the Ohio State *Journal*, friend GRAY frankly "owns up," and tells of the holiday gifts he is preparing, in consequence, for certain of his political friends in this State. Hear him:

We acknowledge the corn in Wisconsin, and are preparing a lot of *leather* medals for the *leading* democrats there.

The largest of these medals, we understand, is designed for our neighbor of the *Commercial Advertiser*, whose services in the late election were invaluable. He is expected to wear this medal and one of the "same sort," preparing for him by the democracy of this Congressional District, in the next National Convention!

THE BANK ISSUE.—The Madison *Argus*, like hosts of the "democratic" organs in this State, makes haste to reiterate its hostility to Banks, and to insist that the whigs shall be held responsible for the system to be introduced. It says:

The success of the question in no sense, affects the truth of our positions. It only shows the *hum bug* to be popular. A very few years will suffice to show who are true prophets as to the success of banking in Wisconsin. * * * *

As the experiment is to be tried, we are not sorry that the democrats are relieved from the responsibility of the job.

The "democrats," having a decided majority in the Senate *cannot* escape their share of this "responsibility," unless enough of them resign to give the whigs control of both branches. The sincerity of their affected desire to throw all the responsibility upon whig shoulders admits of this easy and simple test. We wait to here of the *first* resignation.

BEQUESTS.—The New York *Tribune* says that the bequests of the late Mr. Thompson for benevolent purposes will be much larger than at first stated. He left $33,000 to various relatives and friends, and the balance of his estate, was $350,000, will be appropriated as follows, as near as can now be estimated:

American Bible Society	$65,000
American Tract Society	54,220
American Seamen's Friend Society	55,220
American Colonization Society	43,376
American Home Mission Society	43,376
Central American Education Society	32,532
Amer. Board Com. For. Missions	32,532
Institution for the Deaf and Dumb	10,844
Institution for the Blind	10,844

"BREAKERS AHEAD!"—The wary pilot of the Madison *Argus* dont like the "signs of the times" in this State. In the course of some speculations about the Presidency, it thus impresses upon its political friends the necessity of keeping "a brighter look out."

At the same time, prudence dictates a cautious selection, so far as Wisconsin is concerned. The large abolition vote recently conveyed to the whigs, should the transfer extend to Scott, would render the success of the democracy quite uncertain. It would require a degree of exertion greater than has been put forth since the state was organized.

This is a significant concession from the leading organ of a party which has heretofore boasted its *five to ten thousand* majority in this State!

SPEAKERSHIP OF THE ASSEMBLY.—The Madison *Statesman* copies the Sheboygan *Mercury's* "favorable allusion" to Mr. SHAFTER, as a fit candidate for the Speakership, and proceeds to endorse the same as the following terms:

From all we can learn of the man, we are inclined to think him eminently fitted for the place. Mr. Shafter will, without doubt, make an efficient and energetic presiding officer, and as such will contribute largely towards healthy and constitutional legislation.

A RIVER RUN OUT.—The Lafayette N. C. *Observer*, of the 11th inst., says that Cape Fear river on that day presented an appearance never before seen. It fell on the previous Saturday night and Sunday from 15 to 20 inches, leaving only *five inches* of water in the channel! The steamer *Chatham*, (which has been said to run wherever there is a respectable dew,) was fairly aground with all the batteaux used as lighters.

GRASPING ENGLAND.—The last steamer brought news that the Governor General of India had determined to seize upon a portion of the territories of Dost Mohamed, of Cabul, (the valley of the Jowe) it being well situated for establishing a post to watch and over-awe the restive inhabitants. England is true to her ancient reputation in that quarter of the world, as everywhere else.

SCHOONER NEWBOULD SAFE.—The Grand River *Times* of last week reported the Schooner *Newbould*, Capt. Main, as capsized and lost with all on board, some thirty persons, while on her way from Chicago to Grand Traverse. The Racine *Advocate* of Wednesday contradicts this report and says that the vessel and all on board are perfectly safe. As the *Newbould* is owned in Racine, the *Advocate's* account is doubtless correct.

THE BUFFALOES IN LUCK.—The Buffalo *Express* of Saturday last relates that three more residents of that favored city have received appointments at Washington, in the Post Office Department, viz: Mr. GEORGE R. HIBBARD, (as Chief Clerk in the Appointment Bureau,) Major EUGENE VANDERBERNTS, and Mr. G. W. HASKINS, recently one of the editors of the Buffalo *Courier*, an able democratic paper.

Official Returns—Continued.

We continue our table of the official returns of the vote for Governor, this being the only remaining point of interest.

Farwell's majority	454	

La Pointe and Chippewa yet to hear from.

We give Farwell 783 majority in Walworth on the authority of the Madison *Argus* of Wednesday last, which so reports it complete. We do not think the remaining counties, or the official returns can reduce Mr. Farwell's majority below 350.

We do not think that any poll was held in Door County. As to Oconto, we take the figures as they appeared in the Green Bay *Advocate*.

Marathon County—Official.

WAUSAU, Nov. 11th, 1851.

DEAR SIR:—

Herewith I forward you the returns in full for this new County. You will see that the Whigs have done nobly, giving a majority for the entire whig ticket, with the exception of Assemblyman, and local issues determined that.

Yours truly, W. D. M.

THAT "ATTACHE."—The New York papers are in hot pursuit of the name of the person signing himself "*Attache*," who wrote from Marseilles the abusive letter concerning Kossuth and his companions. An officer of the *Mississippi* writes to the N. Y. *Times*:

Never has an American vessel been greeted in the Mediterranean with more enthusiasm. The *Attache* was disgusted and mortified. Poor sensitive fellow! I for one, was proud that I was attached to a ship dispatched upon such a glorious mission, and receiving the cheers and blessings of thousands wherever we went. I believe, candidly, that the only two men in Marseilles who were in fear of us, were the Prefet and the American Consul—the Prefet for fear of offending his noble, high-minded Government, and the American Consul for fear of offending the Prefet.

The American Consul at Marseilles is John L. Hodge, and he is supposed to be the writer of the letter.

MASSACHUSETTS.—The Free Soil leaders in the Bay State openly boast that not a single Hunker locofoco has yet been returned to the House or Senate, and they declare that none shall be. Yet the Hunkers submit, and vote for the Free Soilers, and their papers through the country rejoice over the great victory achieved in Massachusetts.

LIBERAL DONATIONS.—JENNY LIND, while at Columbus, Ohio, presented $1500 to the "Capital University" located there, and under the management of the Lutherans. She has also presented a very beautiful silver communion service to the Swedish Church in Chicago, under the charge of the Rev. Mr. UNONIUS.

POST OFFICE CHANGES.—The P. M. General has established new Post Offices at HINGHAM, Sheboygan County, Wisconsin, LEMUEL TIBBETS P. M., and at SARGENT, Waushara County, SEWALL LORD P. M. He has discontinued the Post Office at MISHICOTT, Manitowoc County.

City Matters.

Oratorio of the Creation.

This sublime composition of Haydn's is to be performed this evening by the Musical Society, at their Hall in Dickerman's Block. It was thoroughly rehearsed last Spring, preparatory to its production in June, and was brought out, as most of our readers will remember, in capital style.—For three weeks past the Society have been again rehearsing it, and it is not to be doubted that, under the skilful and competent direction of Mr. BALATKA, and with the help of an excellent Orchestra and well-drilled Chorus, it will be given to-night with admirable effect. For those who appreciate and enjoy good music few more inviting programmes could be offered than the Oratorio of the Creation by the Musical Society of this City; and we hope to see at the Hall *to-night* an audience worthy of the rich entertainment thus provided.

WELL DONE!—The Common Council, at their meeting yesterday afternoon, paid a well-merited and *substantial* compliment to the Fire Department of our City. After a brief speech from the Chief Engineer, urging the policy and justice of the measure, they appropriated, by a *unanimous* vote, $100 to each of our Fire Companies to furnish their Houses, and make them comfortable for the Winter. We believe that this will prove an excellent investment for the City, as we are sure that it will furnish an additional incentive to our Firemen to do their whole duty whenever their services are needed.

☞ Mr. AUGUST KRUER, the new editor of the Wisconsin *Banner*, makes his bow to the public in yesterday's paper. We welcome him cordially to our city and fraternity, and wish the enterprizing proprietors every success *except* political.

KOSSUTH'S SPEECH.—We commence to-day and shall conclude in our next the publication of KOSSUTH'S great speech at the Banquet given to him by the Mayor of Southampton. It tells his story simply, eloquently, and unanswerably.

☞ Mr. Harmanus A. Vedder, father-in-law of the worthy Postmaster, Mr. A. Vedder, of the town of Eagle, in Waukesha county, in this State eighty-one years of age, and the last survivor of the New York Legislature under Gov. Lewis, in the session of 1807, walked to the polls, a distance of three and a half miles, on last election day, and deposited his vote for the whig ticket. He was girt up with an Indian belt, with which his father was bound while a Captain among the Indians in Tyron county, State of New York, in 1779, and exhibited all the fire and vigor of a whig of '76. With such men the Union is safe.—*Milwaukee Journal.*

Messrs. Carpenter & Tenney:

SIRS: The election in this county has resulted in the success of the whole democratic ticket, by majorities ranging from twenty to fifty. Dr. Otis Hoyt, a firm and reliable democrat, is elected to the Assembly, over Parke, whig, and Mahoney, Independent democrat. Burns beats Hughes about twenty votes in the county.

Respectfully yours, J. O. H.

DEAD BODY STOLEN.—The dead body of a well built man, which had the appearance of having deceased only a short time, was discovered packed in a common trunk on the cars, on the Central Road on Saturday. The discovery was made between this city and Dearborn, where the man having the trunk in charge left the cars and struck for the woods. The trunk was destined for Dexter, in this state, and was stated to belong to a woman. From the circumstance of a man answering the description of the one who jumped off the train at Dearborn, having hired a horse and buggy and borrowed a spade in this city, the night previous, there is little doubt that he will be arrested.

Since, writing the above, we are informed by the officers that there is strong reason to believe that the body is that of a rich farmer from Ohio, who has been missing some time from home.—The clothes and age of the man—about 50—answer the description.—*Det. Adv.*

SAD ACCIDENT.—On Friday last, Mr. James B Rand, of the town of Sun Prairie, in this county, formerly of Jackson county Virginia, had his right arm caught in a Threshing Machine, and so badly torn as to leave scarcely room for amputation below the shoulder. The limb was removed close to the shoulder joint, by Professor Chapman, and the patient is as comfortable as could be expected, considering the lacerated condition of the muscles above the point of amputation. The machine was a "Separator," and the accident occurred by a slip of the foot, which threw him upon the cylinder, and brought his arm in contact with its devouring teeth.—*Madison Argus.*

REWARD OF VIRTUE.—There is a report until now confined to a small private party that Capt. Isaiah R—— will be appointed to a lucrative clerkship in the Register's Office.—*N. Y. Tribune.*

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, November 21, 1851.

The gloomy weather, muddy streets and heavy roads check business. Receipts continue light and prices stationary.

We quote wheat at 35@65½c, for ordinary Spring to prime Winter.

Flour, good to extra brands 2.75@3.50.

Barley 37@42c, with a shipment of 1000 bushels for Buffalo.

Pork $4,25@4,75, with steady demand.

Salt $1,62½.

Detroit, Nov. 17, 1851.

The business of the season in produce is drawing to a close.

The receipts of flour during the past week have been comparatively light, and sales quite limited. The range for the last four days ending Saturday night, for desirable lots fancy was $3.10@3.12½ free on board. Flour will commence to-day going east by the way of Dunkirk, and, as vessels are plenty in port, and eastward going freights limited, previous rates must decline. No flour will probably be shipped via Ogdensburgh later than the 25th inst. But Buffalo and Dunkirk shipments will be made to a later day.

Freights to Ogdensburgh have stood during most of last week at 15 cts., and to Buffalo at 20 cts; but they cleared on Saturday at 14 and 18.

The stock of flour now in store in the city is quite light, and many of the warehouses are nearly empty.

The great proportion of the wheat is still unground in farmers' hands, and the spring business must open heavier than it has in many years or ever before.

A MAMMOTH MILL.—The *American Miller* of the 5th inst. describes Beach's Mill, at Port Byron, as the largest in N. Y. It consists of 10 run of stone, propelled by five overshot wheels, driving two run each, with the necessary bolting and cleaning apparatus. This mill was built for the late Gen. Beach, of Rochester, by Robert M. Dalzell, Esq., assisted by the Messrs. Jewells, all of Rochester, and most skillful millwrights. The mill is capable of turning out about 800 bbls flour per day, and of consuming 3500 bushels of wheat every 24 hours.

OGDENSBURGH RAILROAD.—The earnings of this road for the month of October, were as follows:

Freight	$20,525,08
Passengers	19,760,84
Rents	262,54
Total	$40,549,46

MICHIGAN SOUTHERN RAILROAD.—The earnings of this road for October, 1850 and 1851, were as follows:

October, 1851		$53,589,00
October, 1850		29,096,00
Increase		$24,493,00
Total earning, May 1 to Oct. 31, 1850		$92,966,00
do do do 1851		180,543,00
Increase		$87,577,00

NEW AND DANGEROUS FRAUD.—Twenty dollar bills of the Southport Bank, Connecticut, altered from ones, and remarkably well done, are in circulation. The alteration is done by extracting the figure 1, on each end of the bill, and printing in its place 20. The words "one dollar" in the body of the bill are changed by the same process to "twenty dollars." The changes are so nicely made, that the bills would be apt to deceive the best judges. The public would do well to refuse all bills of this denomination. We believe the bank never has issued any twenties.—[Traveller.

She then made for this port, and grounded near the piers, where she now lies full of water and badly pounded. She was insured.

THE TAIL OF THE COMET

IS forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.

The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☞ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues, to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established wherever it has been used.

DAILY SENTINEL.

By Last Night's Mail.

Arrival of the Steamer

AFRICA.

New York, Nov. 19th.

The Africa arrived at three o'clock with one week's later news from Europe. She left Liverpool Nov. 8th, at 10 A. M. Cotton had advanced 1-8d with an active demand. Sales of the week amount to from five to eight thousand bales, of which speculators took five thousand and exporters the remainder.

Flour advanced 6d. on better grades, and wheat 1d. Corn unchanged and dull. Lard has further declined, with sales at 45a46. Tallow dull.

New York, Nov. 19.

The Franklin sailed at noon to-day for Havre and Southampton with 45 passengers and $511,000 in specie, which is only about half what was expected it would be.

The steamer Georgia from Chagres brought no mail for New Orleans, it having been put in a wrong train by the mail agent at Chagres.

Our Relations with Spain

Washington, Nov. 14.

Suitable offers have been made, M. Calderon, the Spanish Minister, for a settlement of the difficulty with Spain, growing out of the Cuban insurrection, and the outrage upon the Spanish Consul at New Orleans and the destruction of the property of Spanish residents in that city.

The propositions made by Mr. Webster, while couched in terms regardful of the dignity of the United States, are such as will probably be accepted, and thus secure an amicable adjustment of the difficulties.

The President has concurred in all the views taken by Mr. Webster on the subject of the proper mode and extent of the redress due to Spain.

Some of the formalities suggested by M. Calderon were objected to by Mr. Webster, and the President sustains him in those objections. In the propositions that Mr. Webster recommends the President concurs.

Distinct overtures are now therefore made to M. Calderon, and they are supposed to be of such a character that will meet all the views of his government and which will be unobjectionable to the American public.

What is offered cannot be considered as too much, but on the contrary, it is as little as we can possibly offer, as a reparation to an insulted government and nation. The overtures are now before Mr. Calderon, and it is presumed that he will accept them. He may require some modification, but none that will be inconsistent with the views of this government.

In a few days, therefore, we may hail with pleasure a restoration of friendly relations with Spain. The immediate consequences must be the restoration of the American prisoners, and the abandonment of proceedings against Mr. Thrasher, and all Americans who have had or who have been suspected of having any connection with the late attempt of invading Cuba.

Arrival of the Daniel Webster—Later from California.

New York, Nov. 17.

The steamer Daniel Webster arrived at this port about 11 o'clock last night from San Juan de Nicaragua, with about 500 passengers and about $600,000 specie on freight and in passengers hands. Her California dates are to the 15th Oct., brought down to San Juan del Sud by the Independence and North America.

The news is of no great importance.

An attempt is again being made to establish steam communication with the Sandwich Islands, and the first steamer is expected to be placed on the route in about a month.

The weather throughout Oregon and California is delightful. The agricultural, mechanical and commercial interests are in the full tide of prosperity. Mechanics readily obtain steady employment at $8 a day, and common laborers $5, and from the large number of buildings going up it is probable they will be employed for the next six months.

The Alta California of the 6th says that the tide of emigration has ceased, and that the population of the state is no larger if as large as it was a year since.

Stockton has been, during the early part of the month, the scene of outrages similar to those which, some time since, disgraced San Francisco. Three men were shot in that vicinity on the 3d.

On the same night a person was most inhumanly butchered in the outskirts of the city.

The latest dates from Oregon bring no important news. A party on their way from Oxford to Portland were cut off by the Indians and all but two massacred. Amongst those killed were J. P. Pepper of Albany, aged twenty-eight, and Patrick Murphy, of New York, aged twenty-two.

California markets have been very dull since the last report with only a limited demand for goods of all kinds.

At no period has mining prospects for success been so encouraging, and the yield of gold, it is thought, will be greater than any year, since its discovery.

A serious accident occurred on the San Juan by the sinking of one of the small steamers plying on the river. Several lives of returned Californians and considerable money was lost. Names not yet ascertained.

New Orleans, Nov. 12.

The brig *Tehuantepec* has arrived from Vera Cruz with the report of the continued success of Caravajal, and of the final capture of Matamoras by the insurgents.

Baltimore, Nov. 16.

Archbishop Kenrick was to-day invested with the Pallium—Bishop Timon of Buffalo, acted as celebrant, and the Rev. Mr. Sourin, of Philadelphia, as administrator. There was a large number of spectators.

Massachusetts Election.

Boston, Nov. 13.

The complete vote of Middlesex county for Senators shows the defeat of Gen. Wilson, the Free Soil President of the Senate last session, by five votes.

Mr. Beard, coalitionist, of Lowell, is also, probably, defeated.

Louisville, Ky., Nov. 17.

Henry Clay left for Washington on Saturday. Calvin Fairbanks was tried to-day for kidnapping slaves, and held to bail, on the charge of felony in the sum of $5,000 in default of which, he was sent to jail.

The Legislature balloted to-day without choice for U. S. Senator, George Robinson, J. J. Crittenden, and H. Marshall, whigs, and W. O. Butler, loco, were voted for.

Fire in Philadelphia—Terrible Scene.

We gave a day or two since a telegraphic report of a large fire in Philadelphia, attended with loss of life. The following painful details reach us by the mails. The *Pennsylvanian* says:

At the time the fire was discovered there were not less than one hundred persons employed within the building, mostly boys and girls. It is feared that a number of them were first suffocated, and their bodies thus fell an easy prey to the flames.

The fire first broke out in the south end of the second story, near the stairway, and thus at the very commencement the retreat of those in the upper stories was entirely cut off. Their only chance of escape was through the windows, and a number of them, availing themselves of those apertures, leaped into the street. Several of them were caught by the spectators of the horrifying scene, and were borne away apparently lifeless.

One man, named John Browning, who was employed in the fourth story, leaped from the window and broke both his legs, and both arms. He was immediately picked up and carried home.—Another man, named William McCoombs, also sprang from the third story window and broke one of his legs. The most horrible part of the affair is, that two dead bodies were dragged from the burning building, a man and young woman. The man was Edward Crossley, an Englishman by birth, who has left a wife and infant. The other is that of Miss Mary Ann Browning, the daughter of Mr. B., who fractured his leg by springing from the window.

A girl named Emily Williams, aged 16 years, was missing up to half past nine o'clock last evening. When last seen she was in one of the upper stories of the building. In fact there was eleven boys and girls in the third story, and not one of them had been found up to the hour above mentioned. The most painful apprehensions were entertained by the relatives and friends of the employees in the establishment up to the time we left the heart-rending, soul-sickening scene.—The dead bodies of the man and woman were taken to the office of Alderman Thornley.

The greatest excitement prevailed among the people, and horrid stories were freely circulated, but many of them of course could not be relied on.—Half frantic fathers and mothers could be seen, vainly searching for their children.

The whole loss is estimated at from $30,000 to $35,000.

A later account states in addition to the two persons who are known to have perished in the woolen factory in Hamilton st., the body of Agnes Morrow, aged 21, was dug from the ruins.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. Of course it did, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the number to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

JOHN DWIGHT & CO'S SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and is also more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

STOVES, (BOTH WOOD AND COAL,)

FOR COOKING, PARLOR & OFFICE USE; GRATES, FIRE FRONTS, CITY AND COUNTRY HOLLOW WARE, KETTLES of all kinds; SAD-IRONS, STRAW CUTTERS, CORN CRACKERS & SHELLERS, AGRICULTURAL IMPLEMENTS, AND PORTABLE

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,
(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

TAKE NOTICE!

PATENT BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massilon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1.25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common-sense public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, the expense of the cord and sacking bottom being saved; and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the lightest benefit. He had one daughter die from the same cause. J. B. TRIPP & Co.

HINMANSVILLE, Oswego Co., May, 1848.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla, Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of my medicine?

Louisville, May 20, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable. L. P. YANDALL, M. D.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

INSTANT CURE OF PAIN.

RADWAY'S READY RELIEF,

CURES THE WORST DISEASES IN MINUTES AND HOURS, AND STOPS THE MOST CRUEL PANGS IN SECONDS.

So quick and efficient is Radway's Ready Relief in stopping pain and curing diseases, that it has frequently raised the diseased and hopeless invalid from a bed of sickness in a few hours. It has cured the worst pains of

RHEUMATISM,	In four hours,
NEURALGIA,	In twenty minutes
TIC DOLOREUX,	In ten minutes.
TOOTH-ACHE,	In three seconds.
SICK HEAD-ACHE,	In three seconds.
NERVOUS HEAD-ACHE,	In fifteen minutes.
SOUR STOMACH,	In five minutes.
HEART-BURN,	In five minutes.
BOWEL COMPLAINTS,	In thirty five minutes
CRAMPS and SPRAINS,	In twenty-five minutes
DIARRHOEA,	In one hour.
INFLAMATION of the BOWELS	In thirty minutes.
LOCAL INFLAMATIONS	In ten minutes.
INFLUENZA,	In twelve hours.
HOARSENESS,	In ten hours.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES.

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is produced. Not so with RADWAY'S READY RELIEF. Its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 90,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent at Romeo, Michigan, writes: "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic, and of Billious type."

LADIES BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains, and all Aches; Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief."

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water-st., who was confined to his bed for nine months, who tried every liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "In two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours,—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snowflake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c., in use. Its first action is to subdue the acute sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution, to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties soften the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflamation, swelling and irritation of Bronchical organs, and by bathing externally the neck, throat and chest, it produces a quicker action on the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a tablespoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

ELEGANT TOILET REQUISITES.

To Enhance and Embellish the Charms of Beauty.

RADWAY'S MEDICATED SOAP.

Radway's Medicated Soap, so favorably known through the fashionable world for its extremely bland, purifying and soothing effects on the skin; while by its action on the pores and the minute secretary vessels it expels all impurities from the surface, allays every tendency to inflammation, and effectually dissipates all redness, tan, pimples, spots, freckles, discoloration and other cutaneous eruptions. The radiant bloom it imparts to the cheek, the softness and delicacy which it induces of the hands and arms, its capability of soothing irritation and removing cutaneous defects, render it indispensable to every toilet.

Gentlemen after shaving will find it allays all irritation and tenderness of the skin, and renders it soft, smooth and pleasant.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

THE SUBSCRIBERS, having purchased the exclusive right of using

WOODWORTH'S PLANING MACHINES,

in the county of Milwaukee, are now prepared to furnish from their own stock the best kinds of planed

Flooring, Siding and Ceiling,

as well as to execute orders from customers when desired. These machines are now used in all parts of the United States, and are admitted by general consent to be superior to all others in the quality of the work executed by them. Their Steam Mill is on West Water street, Fourth Ward, near the Rail Road Depot, where they invite their friends to call and see the Machines in operation and inspect the superior quality of the work done by them.

They also keep at their Lumber Yards on Erie street, (old stand) opposite the Red Warehouse, a full assortment of Lumber.

Sawed Timber, of all sizes and lengths, Long Joist and Scantling, Planed Lumber of all kinds, a superior article of sawed Shingles, Pickets, and Cedar Posts.

The quality of their Clear Lumber this season is equal to any to be found in the City, and they would invite the attention of Carpenters and Builders to an inspection of it. They would also give notice that they are the authorised agents for the sale of Rights (which all persons are cautioned against using without right, as such infringements will be legally noticed) to use the Woodworth Planing Machine for the State of Wisconsin.
